

PRESS RELEASE 20 MARCH 2017

Italeaf: Skyrobotic get the project certification by ENAC for the drones SR-SF6

Skyrobotic, a company leader in the production of drones under 25 kilograms entirely Made in Italy, part of the Italeaf Group, announces that it has obtained the project certification by ENAC (National Civil Aviation Authority) for the unmanned aircraft system SR-SF6 (drone). By obtaining this certification, Skyrobotic will mass-produce the SAPR SR-SF6 qualified to carry out critical specialized operations, in line with what is specified in article 10 paragraph 5 of Regulation "unmanned aircraft systems".

The project certification introduced by ENAC in Regulation "unmanned aircraft systems" brings together, in a simplified way, the concepts that in the traditional world of aviation are known as DOA (Design Organization Approval), POA (Production Organisation Approval) and Type Certificate.

Skyrobotic is the first independent company to have obtained both aircraft certification EN 9100 and project certification of its drones, developed for B2B customers for professional applications with high technological content. It is a further confirmation for the company and for its aircraft systems, which will allow Skyrobotic to interface itself with the most demanding reality in terms of quality and safety.

Skyrobotic S.p.A. is the Italian leading company in the field of UAV (drones) production. Established in December 2013, it is part of Italeaf group, working on the development, manufacturing and marketing of civil and commercial drones, mini and micro classes for the professional market. With a constant focus on innovation, the company aims to achieve leadership in the professional sector of unmanned aircraft, taking care of the whole industrial chain: from design to the system integration, till the production of reliable and effective platforms. Skyrobotic joins track record, operational experience and the financial capacity of Italeaf, which is leader in the fields of cleantech and innovative industry and listed on the MTF NASDAQ First North at the Stockholm Stock Exchange. Moreover Skyrobotic joins the know-how and experience of Siralab Robotics, a company with high technological content.

This press release is also available on the Companies website: www.italeaf.com and www.skyrobotic.com
